Senior Manager Inspections - Toronto Building
City of Toronto

Overview:

Toronto Building is undergoing a comprehensive transformation to become a modern, client-centric organization. As Canada’s largest municipal building regulator, the Division is critical to Toronto’s success and prosperity. Its core services — issuing building permits and inspecting construction — ensure that Toronto’s built environment is safe, accessible, and sustainable. These services are also vital to achieving many of the City of Toronto’s strategic objectives, from affordable housing to economic recovery following the COVID-19 pandemic.

As part of the strategic transformation of the Toronto Building Division two new roles have been created to assist with program and service development, oversee the inspections team and day to day operations of the group. The two Senior Manager Inspections will jointly grow and enhance the inspections team, develop processes, customer service, quality, policies, infrastructure, and tools for inspections.

The successful candidate will assist the Director Inspections & Deputy Chief Building Official, in directing the operations of permit and non-permit related inspections and investigation services to ensure compliance with the Building Code Act, Ontario Building Code and other related regulations and by-laws. The individual will also provide leadership and coordinate inspection services across the Division.

Summary Role Experience:

- In-depth expertise, knowledge and understanding of all aspects of building construction in a complex setting, the Ontario Building Code Act, Ontario Building Code, and other applicable laws relating to the construction industry.
- Post-secondary education in management and/or in a professional discipline pertinent to the inspection field or an equivalent combination of education, training and/or experience.
- Extensive experience in a leadership role in an inspection or plan review function motivating, training and/or managing staff.
- Qualified or in the process of obtaining qualifications, or able to complete and achieve qualifications as a manager/supervisor of inspection as required and administered by the Ministry of Municipal Affairs and Housing.
- Process and quality improvement, planning and organizing in complex environment/situations as it relates to managing and improving inspections.
- Experience improving customer service/customer experience.
- Planning and organizing in complex environments/situations.
- Experience in the municipal sector, government, construction/development entities, engineering/development/construction consulting firms.
- Organizational development and management/lead, inspire, recruit, train and retain a highly motivated and diverse workforce.
